

Purpose

Vision

We at Urban Sun Investments will leave the earth better than we found it by focusing on the convergence of its built, natural, and social systems with collaborative, innovative, and holistic solutions.

Strategy

Our efforts are currently focused on mixed-use and urban infill development that is responsive to the environment and contributes the community well into the future. We invest in and develop projects that:

- Revitalize urban and historic neighborhoods
- Conserve the natural environment
- Preserve culture and history
- Create range of options for living, working, creating, and interacting
- Promote social connectivity, walkability, and transportation alternatives

- Consist of high-performance, healthy, Green buildings
- Embrace renewable energy

Philosophy

Urban Sun Investments was formed so that its members could make the world a better place by focusing on their passion and expertise.

Our work is an extension of our business philosophy that:

- Our greatest contributions to society come from acting on what we are most deeply passionate about.
- We are optimistic where others perceive impossibility.
- Great things come from the transcendent collaboration of many minds.

- We must be responsive and open to change, yet persistent in our values in order to be successful.
- Everything is part of an interconnected, living system.
